The Intelligenter.

It has been rumored that if Senator Conkling ever allows bimself to think of second choice at Chicago, the name of enator Windom, of Minnesota arises beore his mind. The Washington Exodus. which now displays the flag of "Grant and Bruce" at the head of its editorial page, may have this possible second choice in lew when it embalms Mr. Windom in

immortal verse in the poet's corner. Critics are boldly challenged and doubts contemptuously dismissed in the very be ginning: Who deres to say, he's not our friend, Ayal the very friend we want, Windom, the staunch Republican, Backed up by U. S. Grant.

By an easy transition the poet pass from an historical to a contemporaneous

It would naturally be supposed that this "exodizing movement" affects the colored people and that they are to leave the South and so "enlarge the borders of our land." But this seems to be a mistake.

I prophecy, in after years That douthern blood, the best Will scatter as 'its doing now And settle in the West, And that the Southern gentlem Will tell his patrimonial lands and with curerprising Northers Form consolidated bands, &c.

We are afraid that our "exodizing" contemporary is something of a trimmer, because while it supports Grant for President the poem ends in this cautions way:
Their affections are for Lincola,
"Cause he preclaimed them free"
And for U. S. Grant, who won the day
For them and Liberty—
And now with trust loyal heart,
A stateman's purest test
Windom is gaining every day
While pointing to the West.

If Windom the second choice is main.

The break in these two stocks affected p the whole list unfavorably, and there was a general decline of ½ to 3½ per ceed, the latter in Wabash, which was influenced to some extent by a repetition of the rumors about a fresa issue of steck. After a while Canaca Southern railied 2½ and Pacific Mail 1½ per cent, and there was a sympathetic improvement in other shares. This was followed in the afternoon by a sudden decline in coal roads, Delaware, Lackawanna and Western dropping to 76½, and Jersey Central to 65. This caused a weakening in the general list

At second board coal shares rallied 14a igan to arrive \$1 17½; No. 2 red winter, spot. 1½ per cent, which imparted a firmer feeling to the whole market. The reasons given for the fresh decline in values to-day are the old ones, viz.: The general demoralization of the buil element and the fact that prices are not low enough to suit some of the leading operators who have complete control of the market for the time being. During the afternoon the depression was more marked than at ady previous time since the downward mevement set in and the market was utterly demoral.

previous time since the downward insvement set in and the market was utterly demoralized. There was a sharp pressure to sell all leading speculative shares, and the transcest ions were enormous in the closing hour of dusiness. The decline brought out large amounts of long stock, the natural result was a further weakening of margins. At the lowest point toe decline for the day was 1 to 3% per cent. Canada Southern, Jersey Central, Pacific Mail, Wabash, Michigan Central and Grangers, showing the greatest fall in the final sales. There was a recovery of 15 to 1 per cent, this advance being led by Jersey Ceutral, Reading and St. Paul. Honor from Europe.—It is conceded on all sides that Dr. Ayer's Pills are above comparison with other medicines. Uniting the best elements known to the chemist, they are particularly effective against the numerous stomachic disorders for which they are recommended as a cure. These pills are so mild, yet searching, that they are often prescribed by doctors who otherwise do not favor patent medicines. Indeed, with the fruits of Dr. Ayer's genius in the shape of Pills, Sareaparilla, Agne Cure and Cherry Pectoral, one might with impunity travel through the swamps of tropical America, or follow Stanley on his travels through the interior of Africa.—Amsterdam Nieuses van den Dag. daw daw
